

Swaraj Telkhade

Technology Integration Engineer — DevOps

+91-8767685588 — swarajtelkhade@gmail.com — LinkedIn — GitHub — DevOps Learning

Summary

Technology Integration Engineer with 2 years of experience supporting enterprise production environments, CI/CD pipelines, Linux administration, and deployment automation. Hands-on experience with AWS, Docker, Kubernetes, and Terraform through practical projects, with a strong interest in cloud-native infrastructure, automation, and DevOps practices.

Experience

Amdocs

July 2024 – Present

- Automated environment monitoring and validation using Shell/KornShell scripts and cron jobs.
- Built and maintained Jenkins CI/CD pipelines for multi-environment deployments.
- Automated SSL certificate validation and expiry monitoring using OpenSSL and Keytool.
- Performed deployment validation checks to eliminate configuration drift.
- Managed enterprise WebLogic deployments across distributed Linux servers.
- Managed Linux-based production environments by troubleshooting applications, services, deployment issues, and runtime failures.

Technical Skills

- **Cloud:** AWS (IAM, EC2, VPC, S3, CloudFormation, Lambda, CloudWatch, ECS, EKS, ECR, ALB)
- **Containers:** Docker, Docker Compose, Kubernetes, Minikube
- **CI/CD:** Jenkins, AWS CodePipeline, CodeBuild, CodeDeploy
- **Infrastructure as Code:** Terraform (Basics)
- **Scripting:** Bash, Shell, KornShell
- **Version Control:** Git, GitHub
- **Middleware & Security:** Oracle WebLogic, Nexus Repository, SSL/TLS, OpenSSL, Keytool, JKS, PKCS12
- **Operating Systems & Networking:** Linux, VPC, Load Balancers, Security Groups, NAT Gateway, DNS

Projects

Kubernetes Cluster Deployment on AWS (KOPS)

- Built a production-like Kubernetes cluster on AWS using KOPS.
- Managed cluster lifecycle including create, update, and rolling updates.
- Troubleshoot API server connectivity, networking, SSH access, and security group issues.
- Verified cluster health using kubectl and KOPS utilities.

Containerized Application Deployment using Docker

- Containerized applications using Docker and Docker Compose.
- Built CI/CD pipeline using GitHub, AWS CodePipeline, CodeBuild, and CodeDeploy.
- Deployed applications using Kubernetes Deployments, Services, Ingress, ConfigMaps, Secrets, and RBAC.
- Implemented Docker networking, multi-architecture image builds, and Kubernetes troubleshooting using Minikube.

Education

Pune Institute of Computer Technology (PICT)

B.E. Electronics and Telecommunications

2020 – 2024

CGPA: 9.44

Achievements

- Solved 400+ problems across LeetCode and GeeksforGeeks.
- Achieved 5-Star Badge on HackerRank.
- Qualified JEE Advanced.
